

TRAIL

Lyon April 2016

INFO:

Vassiliki Tsela, Dimitra Xesfigkouli

PDETh, Greece

Questions:

1) What did you learn/gain from this training program? (Did the organizing, objectives and outcomes meet your expectations?)

It was an interesting and well organized training program with various presentations. The two first days we had a training course about Hype Project. The next three days we discussed about the different countries policies about autism and the motilities teams. It was interesting to hear the developments and policies in the field of autism in other countries. We expected more specific proposals regarding the tools and how to apply the mobile units.

2) How were the TC atmosphere and the cooperation - brainstorming among the participants?

The hospitality of Mireille and Christophe and the French team and the atmosphere and cooperation among the participants was really excellent. The atmosphere were nice. We worked in an cooperative way and the we had the chance to exchange our views.

3) Was it your first participation in Erasmus+ Project Mobility? What are your impressions/ experiences in general? Would you participate again in a similar action?

It was our first participation in an Erasmus+ Project Mobility and we would like to participate again in a similar action. Intercultural exchange of knowledge and views is extremely interesting.

4) Are you going to implement any of the training materials- methodologies at your working environment? If yes, which part(s)?

The teamwork and coordinated support to people with autism that provides mobile team of France is an extremely effective and efficient method and we will try to apply it in my country. The tools and methods available to Greece to support people with autism, adapted for the needs of the Greek population, we will try to enrich with those applied in France.

Kind Regards

Vasso, Dimitra
